

Doctor Jane Goodall's visit in Belgium 14-16 May 2012

Waterstones Bookshop: Book Signing

May 16

A book signing session was organised on Wednesday afternoon in Waterstones bookshop near place de Brouckère. Many readers attended this exceptional opportunity to meet Dr. Jane Goodall. With a brief but intense talk, she delivered a motivating hope message to the audience gathered in the English book shop. Known worldwide for her inspiring lectures, she spends 300 days a year travelling around the world to spread hope for future generations.

Dr. Goodall continued her visit at Waterstones with a book signing session. Seconded by her traveling companion Mr H., Dr. Goodall signed many books and shared a few words with all her fans.

The afternoon ended with a press conference and private interviews. Wishing to relay the message of Dr. Goodall, different media were present such as De Morgen, ELLE France and Radio Leuven Spoetnik. After a last chat with the JGI volunteers, delighted to have spent three wonderful days with her, Dr. Goodall took leave to take a short rest. But her journey continues the next day as she leaves Belgium for the Netherlands.
